

CRDP

PROVIDER BULLETIN

September 1, 2000

QUANTITY

Revision

Effective September 5, 2000, the Chronic Renal Disease Program **has removed the 100 unit quantity restriction on all immunosuppressant drugs** on the CRDP formulary—Neoral® (cyclosporine), Sandimmune®, Prograf®, Cellcept® *and the phosphate binder Renagel®* (sevelamer hydrochloride).

CRDP providers submitting claims for these products with dates of service of September 5, 2000, and thereafter should use the quantity dispensed in a thirty (30) day supply as the maximum amount permitted by the Chronic Renal Disease Program.

Questions may be directed to Provider Services at
1-800-835-4080.
