Nutritional Supplements

Effective February 11, 2008, the Chronic Renal Disease Program (CRDP) will reimburse for the following nutritional supplements through the Program's Medical Exception Process.

Re Gen® frozen -- 2 (120ml) packages per day
Albumax® – 1 can (1000gm) per month
Megare ES® -- 625 mg per day (equal to 5ml)

These claims will be denied at point of sale pending the receipt and approval of a medical exception request from the cardholder's physician. The medical exception must include a copy of the patient's laboratory results and will be reevaluated every six (6) months.

All current prescribers for CRDP patients have been notified of this addition to the Program's formulary and have been supplied with a copy of the medical exception request form.

Claim submission questions may be directed to Provider Services at
1-800-835-4080.
