PROVIDER BULLETIN

May 14, 2012

Prescriber NPI Edit

PACE D.Ø specifications require the prescriber's NPI (Prescriber ID field 411-DB) for all claims *unless* the cardholder's primary plan requires the prescriber's DEA.

As stated in the PACE Implementation Bulletin, the Department of Aging permitted a one month *"grace period" until May 21, to give providers time to update cardholder records.*

Effective Monday May 21, 2012 claims submitted without a valid NPI (*unless* the cardholder's primary plan requires the prescriber's DEA) will deny with NCPDP error code 25: "M/I Prescriber ID."

Questions may be directed to Provider Services at 1-800-835-4080.
