### Medicare Part D Partner Plans 2016

The 2016 Part D partner plans are SilverScript Choice and WellCare Classic. PACE/PACENET tries to match the member with the partner plan that will be the least expensive for the cardholder **which has resulted in many individuals being reassigned.**

Important:

- For 2016, WellCare has changed their RxBIN from 603286 to 004336 and RxPCN from MEDD to MEDDADV. New cards were sent to their members. As you update your cardholder's profiles with this primary payer information, **be sure to also update the Other Payer ID (the BIN) in the Coordination of Benefits (COB) segment, Field 340-7C.** If you are unsure of the location of this COB information, please contact your software vendor.
- As in previous years, lists of cardholders using your pharmacy and their partner plan will be available upon request and will be sent by secure e-mail. These lists may be requested beginning January 4, 2016.
- With over 80% all PACE/PACENET cardholders enrolled in a Part D prescription plan, it is important that **all** prescription cards, not just those belonging to partner plans, be reviewed to insure that the correct cardholder ID, BIN and PCN is submitted to the primary plan.

#### 2016 Partner Plans

PLAN NAME	RxBIN	RxPCN	RxGRP
